marco parra fernandez

has successfully completed the online Specialization

Autonomous AI Agent Systems and Orchestration

The learner has demonstrated the ability to design, build, and scale intelligent multi-agent systems using frameworks such as LangGraph and AutoGen. They have successfully orchestrated agents capable of reasoning, collaboration, and autonomous decision-making, while applying proven strategies to create adaptive AI workflows that enhance automation and productivity. The learner has also showcased practical expertise in building, monitoring, and deploying reliable, scalable agent-based solutions for modern AI applications.
